

SECOND QUARTER FISCAL 2001 Interim Report

## M essage to Shareholders

We are pleased to announce the results for the second quarter of 2001. For the quarter ended September 30, 2000, net earnings were $18.6 \%$ higher than in the same quarter last year and attained $\mathbf{\$ 2 8 . 1}$ million or \$0.55 (basic) per share, compared with \$23.7 million or \$0.49
(basic) per share a year earlier.

Earnings before interest, income taxes, depreciation and amortization (EBITDA) amounted to $\mathbf{\$ 6 7}$ million, $\mathbf{\$ 1 1 . 4}$ million (20.5\%) more than for the same period last year. Nearly $83 \%$ of this increase is attributable to the new Grocery Products sector, which contributed to the whole second quarter 2001 as opposed to only two weeks of the same period last year. The EBITDA margin increased to $\mathbf{1 3 . 3} \%$, compared with $11.2 \%$ for the same quarter 2000.

Revenues totalled $\$ 503.5$ million for the three months ended September 30, 2000, an increase of $1.7 \%$ compared with \$495 million in 1999. Two major factors affected sales: additional revenues from the acquisition of Culinar Inc. and Cayer-JCB Group Inc., and a decrease in the average selling price of cheese on the American market, which fell $27 \%$ lower than in the same quarter last year.

## CASH AND FINANCIAL RESOURCES

Since the beginning of fiscal 2001, net cash flow generated from operations before changes in non-cash working capital items was approximately $\$ 93.4$ million or $\$ 1.82$ (basic) per share. This was $22.1 \%$ higher than the $\$ 76.5$ million or $\$ 1.57$ (basic) per share recorded for the same period in the previous fiscal year. These substantial cash inflows were mainly used to repay $\$ 81.1$ million of the long-term debt, $\$ 61.1$ million more than the Company's current commitments. Net additional capital expenditures accounted for most of the remaining funds generated from operations. These amounted to $\$ 16$ million at September 30, 2000 and included the $\$ 3.1$ million proceeds from the disposal of capital assets during this period.

## INFORMATION BY SECTOR

## DAIRY PRODUCTS - CANADA

Revenues for second quarter 2001 were $\$ 18.3$ million ( $13.7 \%$ ) higher than for the same quarter last year. The February 2000 acquisition of Cayer-JCB Group Inc. was the main reason for this increase.

The EBITDA margin was $13.2 \%$, compared with $13.9 \%$ for the same quarter 2000. If we would exclude the lower EBITDA margins generated by Cayer-JCB Group Inc. and the international market segment, the EBITDA margin would be $16.3 \%$. The integration of Cayer-JCB Group activities is proceeding and the Company believes it will achieve total integration in the next few months. With the resulting synergy, a higher EBITDA margin may be expected. With regards to the EBITDA margin on international sales, this was negatively affected by the delay in setting up a milk supply system compliant with World Trade Organization regulations on export products.

## DAIRY PRODUCTS - UNITED STATES

For the second quarter of the current fiscal year, revenues totalled $\$ 288.2$ million, $\$ 58.7$ million less than in the same quarter last year. The unfavourable average selling price of cheese, which resulted in a $27 \%$ decrease compared to the same period last year, explains $\$ 56$ million of the discrepancy in sales; the remaining difference is due to slightly lower volumes.

EBITDA for the quarter ended September 30 , 2000 was $\$ 36.1$ million, an increase of $2 \%$ compared to last year. The EBITDA margin during this quarter was $12.5 \%$. If we would exclude the effect of the change in the average selling price per pound of cheese, the EBITDA margin would be $10.5 \%$, compared with $10.2 \%$ last year.

## INFORMATION BY SECTOR (continued)

## GROCERY PRODUCTS

Revenues for second quarter 2001 amounted to $\$ 63$ million and EBITDA attained $\$ 10.9$ million. The EBITDA margin was $17.3 \%$, compared with $10.6 \%$ in the same quarter 2000. However, last year's second quarter revenues only included the results of Culinar Inc. for two weeks as opposed to the whole period this year.

Before Saputo acquired the firm, Culinar's EBITDA margin was $12.2 \%$. Company management is satisfied with the progress achieved in integrating Culinar activities, which is reflected in the substantial increase in the EBITDA margin compared with historical data. Activities in this sector are expected to be fully integrated into the corporate fold by March 31, 2001.

## ACCOUNTING POLICY

The Company has adopted, on a prospective basis, the new recommendations by the Canadian Institute of Chartered Accountants concerning accounting methods for income taxes, pensions and other future benefits. Adopting these changes had no significant impact on the results of the current fiscal year.

## DIVIDEND

The Board of Directors of the Company has declared a dividend of $\$ 0.09$ per common share payable on December 15, 2000 to shareholders of record at December 1, 2000. This dividend relates to the second quarter beginning July 1, 2000 and ended September 30, 2000.

Lino Saputo
Chairman of the Board and Chief Executive Officer

President and Chief Operating Officer

November 14, 2000
